PHOENIX, Feb. 25, 2020 - Low-fare carrier Frontier Airlines today announces its further expansion at Phoenix Sky Harbor International Airport (PHX) with the only ultra-low-cost, nonstop flights to two California airports: Los Angeles International Airport (LAX) and San Jose Airport (SJC). “We see tremendous growth opportunities for low-cost air travel in Phoenix and today’s expansion announcement provides significantly lower fares to key California markets,” said Daniel Shurz, senior vice president of commercial for Frontier Airlines. “Our new nonstop flights to Los Angeles and San Jose are an excellent complement to the 15 other routes we offer from Phoenix Sky Harbor. We’re proud to operate at one of the most awarded airports in the U.S. and look forward to continuing our exceptional relationship with the community.”

Frontier is focused on more than low fares. The carrier offers customers the ability to customize travel to their needs and budget. For example, customers can purchase options a la carte or in one low-priced bundle called the WORKS. This bundle includes refundability, a carry-on bag, a checked bag, the best available seat, waived change fees, and priority boarding.

The airline’s frequent flier program, *FRONTIER Miles*, lets members enjoy many benefits as well as attain Elite status. Like the airline, *FRONTIER Miles* is family friendly, and the program makes it easy for families to enjoy the rewards together, including family pooling of miles. *FRONTIER Miles* is aptly named because you earn one mile for every mile flown - no funny formulas at Frontier. If a customer travels a little or a lot, they will find *FRONTIER Miles* rewarding.

Frontier operates over 95 A320 family aircraft and has the largest A320neo fleet in the U.S., delivering the highest level of noise reduction and fuel-efficiency, compared to previous models. The use of these aircraft, Frontier’s seating configuration, weight-saving tactics and baggage process have all contributed to the airline’s average of 39% fuel savings compared to

other U.S. airlines (fuel savings is based on Frontier Airlines 2018 fuel consumption per seat-mile compared to the weighted average of major U.S. airlines), which makes Frontier the most fuel-efficient U.S. airline. More information about Frontier's green commitments are available at [FlyFrontier.com/Green](https://flyfrontier.com/green).

With over 150 new Airbus planes on order, Frontier will continue to grow to deliver on the mission of providing affordable travel across America. Frontier's young fleet also ensures that the company keeps fares low and that customers will enjoy a pleasant and reliable experience flying with the airline.
