

LAND REUSE STRATEGY

Program Committee Members

Project Advisory Group (PAG):

The Project Advisory Group consists of neighborhood advocates and representatives of local organizations. The role of the PAG is to provide guidance to the project with respect to existing initiatives within the community. Members review public information materials prior to dissemination and documents published during the process. The members will promote the project within their networks and provide critical community feedback to shape the overall vision.

Community Roundtable Groups (CRG):

The Community Roundtable Groups consist of neighborhood advocates, residents and local businesses. The goal of the CRG is to assist the project with understanding community goals and expectations. Members review public information materials prior to dissemination and documents published during the process. The members will be a liaison with the community to help promote the project and provide critical community feedback to shape the overall vision.

Project Management Committee (PMC):

The Project Management Committee consists of internal staff from various city departments. The goal of this committee is to collaborate with the team to ensure relevant city planning efforts within the program area are considered for alignment. The PMC will review all project materials prior to publication.
