2. To answer the feedback questions it would be helpful to know the projected enplanements and the airlines operating in the concourse.
3. Where will the lounge be located in relation to the concessions?
4. For the small kiosks, are any of the bars going to have a sip and stroll option?
5. Market availability for ACDBEs. Are you able to provide percentages for each of the concepts? Has the airport posted figures related to race neutrality?
6. Is it possible that all concessionaires could participate in a shared sip & stroll?
7. Are there going to be kiosks available beyond the temporary ones?
